Laboratory Safety Training Instructions

Any person working in a laboratory setting must complete the minimum safety training described below.

- Complete the University's online laboratory safety training modules by watching all <u>four video clips</u> on the website below, and then completing the <u>Laboratory Safety Training</u> <u>Acknowledgement</u> at the bottom of the <u>page</u>. http://oregonstate.edu/ehs/training/lab_safety_training
- 2. Print a record of your safety training by following this link https://secure.onid.oregonstate.edu/login?service=ehs_train
 Login using your ONID information, print your record, and https://secure.onid.oregonstate.edu/login?service=ehs_train
 Login using your ONID information, print your record, and <a href="https://secure.onid.oregonstate.edu/login?service=ehs_train
 Login using your ONID information, print your record, and <a href="https://secure.onid.oregonstate.edu/login?service=ehs_train

All <u>supervisors</u> should review the <u>Supervisor Safety Responsibilities</u> slide show available on the website below. This contains critical reminders of your safety responsibilities. It will only take ~5 minutes to review the material.
