

INTEGRATIVE BIOLOGY PRESENTS THE ROBERT M. STORM DISTINGUISHED LECTURE

Natural History and Values: Why Should We Care About Nature?

Dr. Harry W. Greene

Professor Emeritus of Ecology and Evolutionary Biology
Cornell University

**WEDNESDAY
MAY 31**

**6 P.M. Reception
7 P.M. Lecture
8 P.M. Book signing**

LaSells Stewart Center
Austin Auditorium

FREE
541-737-2993

The diversity of life on earth is under serious threats from human-related causes, and science plays well-known roles in solving this problem. Dr. Greene will describe how natural history also enhances appreciation for organisms and environments, thereby influencing value judgments that ultimately underlie all conservation.
